[ietitle]Achieve equal opportunity and justice (Grand Challenge) SIG **Capitol, ML 4**

Moderator: Rocio Calvo, PhD (Boston College)

Access to opportunities for quality education, affordable housing, and employment still evades many Americans based on past and present prejudice, bias, and stigmatization. This social marginalization has led the United States to ignore the valuable human capital that exists within these communities and has fostered deep inequality throughout society. Addressing racial and social injustices, deconstructing stereotypes, dismantling inequality, and exposing unfair practices will lead to the full social, civic, economic, and political integration of these marginalized groups. Researchers, practitioners and policymakers can engage in a variety of activities that will advance this Grand Challenge and ignite social work achievements.

[ietitle]Advance long and productive lives (Grand Challenge) SIG **Marquis BR Salon 7, ML 2**

Moderator: Ernest Gonzales, PhD (Boston University), Tina Matz, PhD (Boston College), Nancy Morrow-Howell, PhD (Washington University in Saint Louis)

Our SIG focuses on advancing the goals outlined in the Grand Challenge on Productive Aging by the AASW&SW. Since 2017, our SIG at SSWR has had a membership of approximately 25-30 members from emerging scholars to senior faculty. SIG members have organized symposia at SSWR and GSA, co-published together in top multidisciplinary journals, and have sought and received grants together. Another important goal is to share information of funding opportunities with junior scholars and to nurture their intellectual curiosity and capacity with meaningful mentorship. Our goals for this SIG at SSWR 2020 are: (a) disseminate latest research findings generated from organized symposia at SSWR and GSA (2019); (b) identify opportunities to extend this research in the next year; (c) welcome and include new members onto existing working groups; (d) share opportunities for grants, publications, funding and employment.

Moderator: David Ansong, Ph.D., Din Chen, Ph.D. (University of North Carolina at Chapel Hill), Moses Okumu, Ph.D (University of North Carolina-Chapel Hill)

Social interventions are costly and time-consuming. Interventions are successful when they consider: 1) valid statistical design with appropriate statistical power and sample size, and 2) proper quantitative methods to analyze the data. This SIG aims to promote quantitative methods used for SW interventions (e.g., SMART design, adaptive design, Bayesian modelling, causal inference, propensity analysis, etc.). Through this SIG, we plan to develop and disseminate quantitative intervention methods for SW researchers nationally and internationally. We also plan to facilitate special sessions and workshops at SSWR and other SW conferences and Summer institutes at UNC-SSW.

[i]etitle] *Promote smart decarceration (Grand Challenge) SIG Archives, ML 4*

Moderator: Carrie Pettus-Davis, PhD (Washington University in Saint Louis)

The United States is the world leader in incarceration, which has led to staggering economic, social, and human costs for our society. This social justice crisis substantially over-incarcerates the most vulnerable groups; people of color, people living in poverty, and people with behavioral health disorders. With smart decarceration, we can reduce the prison and jail population by 1 million people in the next decade. This entails a proactive, cross-sector, and evidence-driven approach that addresses existing racial and economic disparities and promotes a philosophical shift in how we think about incarceration and public safety. The Promote Smart Decarceration Grand Challenge addresses those factors that have direct and immediate impact on adult criminal justice system processes and an individual's experience in the adult criminal justice system.

[i]etitle] *Reducing extreme economic inequality (Grand Challenge) SIG Treasury, ML 4*

Moderator: Jennifer Romich, PhD (University of Washington), Trina Shanks, PhD (University of Michigan-Ann Arbor)

Extreme economic inequality has become a common characteristic of American society. The top 1% owns nearly half of the total wealth in the U.S, while one in five children live in poverty. These division and disparities lead to slower economic growth, increased social dysfunction, and rising political instability. The Social Work Grand Challenge on Reducing Extreme Economic Inequality aims to focus research on practice on increasing the income of the poor, building income and wealth stability, and changing policies and mechanisms that concentrate wealth solely among the wealthy.

[i]etitle] *Research with Latinx Communities SIG Mint, ML 4*

In the United States, more than 100 people are killed every day with guns and many more injured. Gun violence and the growing frequency of mass shootings shape the lives of people and is a rising social justice issue. As social workers, it is imperative that we work together engage in social discourse to curtail gun violence and collectively seek the best interventions and policies for addressing the impact of trauma. In this SIG, we will examine issues of gun violence as they impact individuals, communities, and systems and ways we can address our ethical responsibilities to the broader society through social action.
